YAMUNA MOORTHY

Assistant Manager – Electrical Maintenance & Reliability | Project Delivery & Digitalization
Phone: +91 8489500818 | Mailto: yam.mrthy@gmail.com | **LinkedIn:** linkedin.com/in/yammrthy

PROFESSIONAL SUMMARY

Electrical & Electronics Engineer (B.E., CGPA 8.98) with 2 years at JSW Steel Ltd. Section in-charge for electrical maintenance of 150 motors and 20 transformers, managing 3 staff and 60 technicians, a Rs. 4 Cr annual maintenance budget and about Rs. 70 L per month in motor-repair vendor spend. Ended recurring motor failures with a QR-based tracking system, reaching zero breakdowns in the last 6 months. Built a maintenance dashboard adopted by 25 departments with no additional capital investment. Certified Six Sigma Green Belt, promoted from Graduate Engineer Trainee to Assistant Manager in 12 months with a 5/5 first-year appraisal. Open to relocation; 30-day notice period.

SKILLS

Project & Delivery: Project Planning & Execution, Cross-Functional Team (CFT) Coordination, Stakeholder Management, Risk & Deviation Escalation, Budget Tracking, Vendor Management, Audit Documentation, Management Reporting

Maintenance & Reliability: PPM, Breakdown (TT Call) Handling, Root Cause Analysis (RCA), Fault Diagnosis, Reliability Improvement, TQM, Six Sigma, Shutdown Support, AMC & Warranty Coordination

Electrical & Automation: Industrial Motors, Transformers, VFDs, Servo Drives, MCC / MCCB Panels, Relays, DG Sets, EOT Cranes, Conveyor Systems, Siemens TIA Portal, PLC Programming, Ladder Logic, SCADA, Sensors, Load Cells

Software & Analytics: SAP, Advanced Excel, Power BI, SQL, Power Automate, HTML, CSS, JavaScript, Maintenance Dashboards, Report Automation

Safety & Compliance: Hot Work & Work-at-Height Permits, Fire Safety Checks, Indian Factory Rules, Hazard Identification, Incident Reporting, Housekeeping & Scrap Disposal Supervision

PROFESSIONAL EXPERIENCE

Assistant Manager – Electrical Maintenance & Reliability, JSW Steel Ltd. **July 2025 – Present**

- Lead **3 staff and 60 technicians** as section in-charge for **150 motors and 20 transformers**, with shift-wise deployment, PPM, TT-call response, fault diagnosis, RCA and troubleshooting of VFDs, MCC/MCCB panels and conveyor control systems.
- Manage a **Rs. 4 Cr annual maintenance budget** and **about Rs. 70 L per month** in motor-repair vendor spend, including warranty claims and AMC support.
- Ended recurring motor failures (about **1 per month**, caused by missed scheduled maintenance) and reached **zero breakdowns in the last 6 months**.
- Protect production where one unplanned motor failure can cost up to **Rs. 2.5 Cr per day**, since a motor swap takes **4–6 hours with a spare versus 2–4 days without**.
- Deployed a **QR-code metal-tag system on 300 motors** ahead of its **2-week deadline** at no capital cost, giving instant status and repair history and emailing maintenance alerts to all in-charges and HODs, so no scheduled maintenance has been missed since.
- Publish daily closed-case, open-case and RCA reports for **150 motors and 20 transformers** for management reviews and audits, while enforcing mandatory safety systems (hazard identification, incident reporting, permits) and TQM practices.

Graduate Engineer Trainee (Internal Job Rotations), JSW Steel Ltd. **July 2024 – July 2025**

- Led digitalization of paper-based maintenance and audit records (Sept 2024 – May 2025), closing audit data gaps with a CMMS-style maintenance dashboard **adopted by 25 departments** and a fleet management system for plant vehicles and equipment.
- Automated shift-wise data entry and daily, weekly and monthly review reports, cutting reporting effort from about **a full week** of per-shift entry to a **10-minute weekly task** with no additional capital investment.
- Maintained EOT crane motors, drives and MCC/MCCB panels through PPM and breakdown work (July – Sept 2024), supported shutdown planning, anti-collision and load-cell installation, and rolled out QR-code tracking on **117 EOT cranes** with instant breakdown alerts to in-charges and HODs.

EDUCATION

B.E. – Electrical and Electronics Engineering, Sona College of Technology, Salem **2020 – 2024 | CGPA: 8.98 / 10**

CERTIFICATIONS & COURSES

- Certified Six Sigma Green Belt – JSW Learning Academy
- Safety Champions Program – JSW Learning Academy
- Managing Projects – HBR Spark
- Siemens PLC and TIA Portal Essentials – Coursera (Packt)
- Basics of Robotics – Siemens Digital Industries Software (Coursera)
- CompTIA CASP+: Industrial Computing Environments – Skillsoft Percipio
- Designing Control Flow (SSIS) – Skillsoft Percipio
- Building Your Team – HBR Spark
- Motivating People – HBR Spark
- Driving High Performance on Your Team – HBR Spark
- Managing Team Conflict – HBR Spark
